PRICE 5 CENTS.

## PLOT TO KIDNAP CHILD OF GOVERNOR EXTRA DIVIDEND TO BE DECLARED

### Burglar Suspect In Limbo

It did not take Chief Leal long to lay by the heels the burglar who went through Messrs. Henderson and Marston Campbell's houses last night. The matter was reported to the Chief shortly after midnight, and by 11 o'clock this morning the supposed thief was in custody.

It appears that the burglar first visited Mr. Henderson's house. Mrs. Henderson, hearing him moving about the rooms, screamed to her husband. The midnight prowler at once decamped and nothing more was seen of him.

Shortly afterward, the same man, it is presumed, visited the Campbell home, and again was disturbed in his work. This time a man named Crocker saw the intruder, and at once gave chase, pulling his gun as he went. Crocker fired five shots at the fugitive, but missed each time. He, however, gave Leal a good description of the burglar, and this morning a Korean named Yoon Ti Choon was arrested on suspicion of being the man who visited the houses.

#### SUGAR.

SAN FRANCISCO, May 4. — Sugar—96 degree centrifugals 3.86 cents or \$77.20 per ton. Previous quotation 3.89 cents.

Beets—Waukegan, 10s. 3d. Parity, 4.16 cents. Previous quotation, 10s. 3.34d.

### HARBOR SURVEY IS COMPLETED

Major E. Eveleth Winslow, Corps Engineers, United States Army, U. S. Engineer for this Territory, has completed a survey of the Honolulu harbor lines. They are now in satisfactory shape, assuring the safety of vessels which touch at this port.

"Of course, there is a discrepancy between the maps prepared by the Washington and by the Territorial authorities," said the Major this morning. "It is up to the Territorial surveyors to prove that the harbor lines which appear on their maps are accurate."

"We have only just completed the survey of the harbor lines. There are yet a few things to be completed before the matter can be considered as finally settled."

Some time ago a meeting was held to consider the advisability of adjusting the harbor lines. A number of well-known people were invited to come and express their views in the matter. Then Mayor Winslow took the necessary steps to find out the then condition of the lines.

### EXTRA DIVIDEND HAW'N COMMERCIAL

Directors Expected To Vote 50c. Extra For June

Hawaiian Commercial will pay an extra dividend of fifty cents a share next month, making the total dividend for the month seventycents.

At least this is the expectation and belief of those most intimately associated with the management of that sugar property. The monthly meeting of the directors will be held next Wednesday in San Francisco and it is expected that the extra dividend will be voted at that time.

Just at the present time this is the only extra dividend in sight among the widely held plantation stocks. There has been some questioning regarding the possibility of an extra dividend in Ewa. Last year the extra two per cent was paid in May. Last month passed without notice of it so the people are hoping that the extra will come out in June, as the year has been a favorable one in most every respect. No action has been taken thus far, and it is known that some of the heavy interests are favorable to the creation of a surplus laid by against the time when there may be a shortage of labor or a less favorable market outlook for sugar. The matter will come up at the May directors' meeting.

The market continues good, the reduction in the price of sugar having caused no appreciable worry. The slight drop reported yesterday is supposed to be the result of the Cuban rains not being as extensive as expected. There are those who also believe.

### DR. BRINCKERHOFF MAY LEAVE HAWAII

His Resignation Reported And He Will Not Deny It

Dr. Walter R. Brinckerhoff, who was sent to Honolulu to have charge of the construction of the great Federal Leprosarium at Kalawao, Molokai, and who was in charge of that institution when it should be completed and a search for a cure for the dread disease commenced is reported to have tendered his resignation, intending to give up the work.

Dr. Brinckerhoff refuses to confirm the report to that effect. However, he also refuses to deny that he has resigned.

Dr. Brinckerhoff was sent to Hawaii by the Federal Government some four years ago to have charge of the then contemplated Leprosarium. He was known as an expert bacteriologist, and came to Honolulu, accompanied by his bride, full of faith that in time he would succeed in finding a cure for the terrible disease that for thousands of years has baffled all medical science. He took charge of the construction of the Leprosarium at the Leper Settlement, now the finest and most complete.

### COOPER GOES TO THE SEATTLE FAIR

Publicity Bureau Will Be Maintained By Hawaii

Hawaii will maintain a publicity bureau as a part of her establishment at the Alaska-Yukon Exposition. It has been decided to send W. J. Cooper of the Promotion Committee to the fair to act as receptionist-in-chief to newspaper men visiting the Hawaiian Building and to assist generally in caring for this Territory's exhibit.

Cooper will leave on the Dix and will be one of those in charge of the remaining portion of the exhibit. He is now making his preparations to go, as the assignment will keep him away from here for at least six months.

It was decided last night by the Promotion Committee to send Cooper to the fair. Another assistant was needed, and it was decided wise to have a man qualified to look after the interests of the Territory as far as the newspapers of the mainland are concerned.

The Dix will sail from here the middle of the month and Cooper will probably arrive at Seattle before the first of June.

### MAYOR SPEAKS FOR OBSERVANCE OF MOTHER'S DAY

To the People of Honolulu: It is planned by a number of religious and other organizations, and by many of our citizens, to observe next Sunday, May 8, as "Mothers' Day." This is an observance which has found much favor in many communities of the mainland. Its purpose is to recall, what in this age and country of separated families, is all too apt to be forgotten, the universal and abiding obligations of love and duty to the mother who bore us and whose unselfish care watched over our childhood and youth. Surely no purpose could be more in the line of promoting good citizenship and making ours a better city and country.

It is with pleasure and gratification, therefore, that I accede to the request of those who are promoting this observance, to call the attention, as far as I can, of the public, and particularly of the young men of this City and County to it, and to urge as general a participation in the observance as may be found practicable.

It is desired that the observance of the day shall be made distinctive by four things. That every young man will wear in the lapel of his coat a white flower, preferably a white carnation; that he will attend at least one service on that day in the church of his choice; that he will write to his mother (if living and absent); and that he will seek to do at least one specific act of kindness.

There can be no doubt but that a widespread observance of "Mothers' Day" will work to civic betterment.

(Sgd.) JOSEPH J. FERN.

Mayor, City and County of Honolulu.

Honolulu, May 5, 1909.

### DANCE FOR LOGAN AT MOANA TONIGHT

The Moana Hotel will give a dance tonight in honor of the officers and ladies on board the Logan. If she arrives this afternoon, there will be special music during dinner by the Royal Hawaiian Quintet Club, which will also play for the dance. Hotel guests, tourists and visitors, and townspeople in general are cordially invited.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

### MONEY TO BRING CONGRESSMEN SENT

Mott - Smith Forwards \$7000 For Initial Expenses

Secretary Mott-Smith this morning sent \$7,000 to G. H. McClellan, private secretary to Delegate Kuhio, to pay the initial expenses of the Congressional visit to Hawaii.

That, however, is all that has been done in the matter to date, so far as anybody at this end of the line knows. No date has yet been set for the adjournment of the special session of Congress, and it is uncertain when the Senators and Representatives to be invited to visit the islands will start.

There will be, it is said, about 40 in the Congressional party that will come to Hawaii. This will include members of Congress and relatives and whomever else they bring with them. It is not probable that they will all travel together over the Territory as they did two years ago, but they will be broken up into smaller parties, as these will be easier to handle and the expense will not be as great.

### WHO WILL PAY FOR PROMOTION WORK?

Supervisors Say They Can't Spare The Money

Will the Supervisors be able to make up the \$5,000 which the Hawaiian Promotion Committee is out through the failure of the Legislature to make any appropriation? They say no.

When the item for promotion came up in the House during the last Legislature, Representative Shingle is alleged to have said that the matter was one that should be left in the hands of the Supervisors of the City and County of Honolulu. In this (Continued on Page 2)

### UNLOADED GUN CLAIMS TOLL

The did-not-know-it-was-loaded gun has claimed one more life, and two sorrowing parents are left broken hearted over the loss of their young child. Steve Berrigan, head engineer of the Hawaiian Dredging Company, departed to work yesterday after bidding a fond good-bye to his little two-year-old daughter. The child was then full of life and spirits, and looking forward to a romp with some children who lived close by.

What happened after that is not very clear, as only the children seem to have been present. At any rate, from what can be gleaned, the Berrigan baby and Captain Parker's children played around the house for some time, and then, as ill-luck would have it, discovered the gun. Evidently thinking the weapon a new toy, the mites dragged it all over the house. Baby Berrigan in pushing against a screen door in some way discharged the weapon. The shot struck the child in the

### To Kidnap Child of Governor

SAN QUENTIN, Cal., May 5. — A plot was discovered today to kidnap the son of Governor Gillett. The scheme was planned by a convict in order to secure a pardon from the Governor, in consideration of the return of his son.

### Japanese City Guards

OAKLAND, May 5. — The Japanese of the visiting warships were entertained by the officials of this city today. After a stop here they went to Berkeley, where they were officially entertained, their itinerary including a tour of the University grounds.

THE LIGHTHOUSE tender Kukui, Captain Johnson, which went to Molokai last Monday, returned this morning, docking at her berth at 11 o'clock. Lieutenant Houston, the lighthouse inspector, did not go along on her.

Saki, the alleged ringleader in the Alca man-baiting case, was fined \$50 and costs by Judge Andrade. The other Japanese were also found guilty and fined \$25 and costs.

### UNLOADED GUN CLAIMS TOLL

The did-not-know-it-was-loaded gun has claimed one more life, and two sorrowing parents are left broken hearted over the loss of their young child. Steve Berrigan, head engineer of the Hawaiian Dredging Company, departed to work yesterday after bidding a fond good-bye to his little two-year-old daughter. The child was then full of life and spirits, and looking forward to a romp with some children who lived close by.

What happened after that is not very clear, as only the children seem to have been present. At any rate, from what can be gleaned, the Berrigan baby and Captain Parker's children played around the house for some time, and then, as ill-luck would have it, discovered the gun. Evidently thinking the weapon a new toy, the mites dragged it all over the house. Baby Berrigan in pushing against a screen door in some way discharged the weapon. The shot struck the child in the

abdomen, inflicting a terrible wound. The charge tore a hole right through the stomach and passed out just above the left hip joint.

Dr. Wayson was at once telephoned for, and he dashed to Water-town in his automobile. The child was alive when the doctor arrived, and he at once did all that was possible to alleviate the toll's suffering. However, the wound was a mortal one, and the child expired at 3:30 o'clock. The shock to the system had been so great that the child did not feel any pain and remained unconscious till the end came.

The doctor conveyed the child's body to Honolulu, and the parents also accompanied him. The remains are at the William's Undertaking Parlor, and the funeral will probably be held from there today.
